Subject: Cr Rule 4.11

Please adopt Cr Rule 4.11 permitting recording of witnesses by defense. This simple, inexpensive and efficient means of preserving the best evidence would seem to be in the interest of justice. I can't understand what basis there could be for opposing it. Even a victim (with a legitimate claim) is best served if the right person is held accountable. If the wrong person is charged or a claim is not legitimate, then justice and the community are served by any tool that aids in bringing this to light. Thank you for your attention. Deborah Kinard
